

The "Ready to Light System" for Unlighted Trees

Many of our tree styles are available without lights and feature the "Ready to Light System". As illustrated below, these trees come pre-wired with extension cords and include a lighting kit. The detailed instructional guide allows for easily adding your own lights. The lights can then be permanently installed or changed out from season to season.

This Tree Features the Ready to Light System

Pre-wired with extension cords to quickly light the tree, leave your lights on and simply store away for next year!
(Lights are not included.)

Includes our instructional guide to easily create your own pre-lighted tree.

All metal hinged construction

Customize your tree, you choose the color of lights you want. Works beautifully with LED lights!

Matching twist ties included to professionally light your tree.

10-Year Customer Friendly Warranty
